Tab 1208 – E9th – More C6 Sounds on the extended E9th Tuning!

Follow on to tab 1207. Play tab 1207, then this tab then repeat tab 1207 for a complete song.

Some simple ideas to get the wide grip C6 sounds without using a universal 12 string tuning!

Strings 1-10 are standard E9th, String 11 is a G# and string 12 is an E open.

A raises 5,10 a full tone, B raises 3,6,11 a half tone, G lowers 5 a half tone

S (split) raises 5 a half tone accomplished by activating A and G at the same time

Note that sometimes it is easier and more in tune to use the 1/2A pedal than the split tuning
