## Tab 1213 - E9th - Really Cool Pull String Riff From Dickey Overby Cut

This takes practice to execute but what a stunning sound!

There's two sound files, one a partial cut from Dickey and one from me executing this with a few different timings. Standard E9th tuning. A raises string 5 a full tone, B raises string 6 a half tone, E lowers string 4 a half tone P pulls string 6 up a half tone in addition to the half tone pull of pedal B! Pull the string behind the bar manually. I used to have pedal that raised string 6, 1.5 tones but I think the manual string pull is easier to control. I've included a second way to play the same notes below but it doesn't sound the same and looks less cool!

## As played on the recordings:

	F					Bb									
1															
2															
3															
4					13	14E-	14E		14E-		13				
5	13	13	13(1/	2A)	13	14A-	14A		14A -		13A				
6	13	13	- 13			14B -	14B <sub>+</sub>	P	14B+	Р—	13B				
7															
8	13														
9		13	- 13												
10															

## Alternate way to play it:

	F					Bb							
1						11 -	11	11 -	- 11				
2													
3													
4					13	11 -	11	11 -	-11E				
5	13	13	13(1/	2A)	13	11 -	11A	11A -	- 11				
6	13	13	13										
7													
8	13												
9		13	13										
10
